

Pamphlet Project: Service Learning

Background: You are a new recruit at the Maryland Department of Vehicles! Your first task at your new job is to educate people on the importance of wearing their seatbelts. Your boss would like you to design a pamphlet that will be easy to pass out to people, and eye-catching so they want to read the information. You will need to use the information you researched in class, as well as the data collected from the surveys given out.

What should go in it?

ON THE INSIDE: There will be 3 sections on the inside, and each one will have different info.

The left side	The center	The right side
What's the leading cause of death in the US? How can we prevent it? Add statistics and data about how many people die in Maryland/nationally. Add data about how many people wear their seatbelts in Maryland/nationally.	Inertia and Newton's First Law What is inertia? What is Newton's First Law? What do inertia and Newton's first law have to do with seat belts? Another picture should be included here.	Other facts: Choose 5 other facts from your research you think are important for people reading this pamphlet to know.

ON THE BACK: One section will be your front, and each of the other 2 sections will have different info.

The left side	The center	The right side
What are the 5 laws about seat belts and car seats in Maryland? Write down 2 other facts about the laws from your research.	Our Survey Write down 6 things you think people should know about our survey. Be sure to include specific data, and graphs.	Should be the front of the pamphlet. A catchy title, and a relevant picture (someone in a seatbelt/car seat, someone driving a car, a car accident, etc.) Write your name here too.

Rubric:

____/45 Each section on the inside is completed correctly, and the information is accurate. 15 points for each section.

____/30 Each section on the back is completed correctly, and the information is accurate. At least one graph is included. 15 points for each section.

____/10 The title page is done correctly

____/15 The pamphlet is in color and contains pictures where applicable.

____/ **100 Total**
